All the public conveyances, at this writing, have either been impressed or have disappeared in some manner or other. Street car traffic, however, has been commed and the cars are running regurly, though the streets are almost deserted. There are a few native stores open, and white flags, in the nature of towels, pillowslips and aprons tied to bom-bees, adorn the windows of the native ces everywhere. But, in spite of these embloms of peace, scores of Fili-pinos, under the cover of darkness, fired from thee same windows yesterday even-ing on the American patrols. At 2 o'clock last night, there was a general fusilade in the Quiapo and Binon districts. The inhabitants of the city generally believed that a battle was ranging at their doors, lights were extinguished inside the dwellines and a majority of the people were in a state of terror. Under the circumstances it is remarkable that no casualities were rted. Several shots were fired across the river during the excitement, " General Hughes has the interior situation ab-

MANILLA FULL OF ASSASSINS Manfin is full of desperadoes who had innded to co-operate with Aguinaldo. The police are continually capturing men and omen with weapons concealed in their clothig. The vigtiance of the authorities in this respect is highly reassuring. Last Saturday about midnight two Englishmen entally encountered a gang of armed natives in a side street. The natives, fearing discovery, imprisoned them until morning and threatened to kill them unless they maintained ellence. Many native clerks, employed by mercantile es, are missing. As it is impossible that they should have passed the lines, the inference is that they are in hilling Several attempts were made to assisinate Americans on the streets, but that danger is now at a minimum The natives are terribly cowed, and the precautions taken, especially against incendiariem, are admirable. NOT YET INVESTIGATING

Committee, It is Thought, Will Get to Work Teday.

Gothrie, O. T., Feb. L.—(Special.)—The much-taiked of investigation was not set in motion today, as was promised, and no une of the committee appears to know just when the search light is to be turned on, unless it be Chairman Endison, and he is as fon-committee to the outside, though, it is the talk that the committee will commence hearing testimony tomorrow.

The public building bill will be intro-faced this week probably Thursday. There are a number of private bills now

pending which, if they pass the legislature, will meet a sharp, swift blow in the neck from the executive veto axe.

The \$6.00 appropriation bill which was vetoed by the governor last week it is rumored, be tacked onto the general appropriation bill as a rider, with the expectation of forcing the governor's approval rather than see the territory deprived of funds altogether.

At the banquet given the legislature in Oklahoma City Saturday night "administration roast" seems to flave been the principal feature of the bill of fare.

It is said that Captain Roy Hoffman's name will be withdrawn from the legislative ticket in the Seventh district, as he is not ret mustered out of the army. In this event it looks as though John Embres would have a walk-over.

Representative Merton is one of the best linguists in either body of the legislature. His shoulders have the "student's stoop." Miss Isabelia Patterson, one of the house enrolling clerks, is threatened with pneumonia. Her home is in El Reno.

The territorial press without exception, so far as heard from, commends the veto of the appropriation bill.

The Ponca City and Perry newspapers are demanding of their representatives in the legislature that the Ronca reservation be placed above the quarantine line.

The "third house" will be formally organized in the hall of representatives Saturday night.

The rumored probability of the free use

The rumored probability of the free use of the executive veto has made the "grafter's" existence a precarious one.
